

## **GlobAgro Corp. signs on for green electricity with Bullfrog Power®**

**December 15th, 2019**—Bullfrog Power, Canada’s leading green energy provider, announced that GlobAgro Corp, a Canadian corporation with a global agricultural cultivation and processing facility located in Africa, is choosing green electricity for its Headquarters in Burlington Ontario, Canada. GlobAgro Corp joins the growing number of Canadian organizations supporting green energy across Canada with Bullfrog Power.

“GlobAgro Corp. is proud to be supporting clean, renewable energy with Bullfrog Power,” said Andrew Baukham, President of GlobAgro. “By bullfrogpowering our Canadian Headquarters with green electricity, GlobAgro is helping transition Canada to a renewably powered future.”

Through the agreement, Bullfrog Power’s producers put renewable electricity onto the grid to match the amount of conventional electricity used by GlobAgro’s Canadian Headquarters. Across Canada, Bullfrog’s green electricity comes from a blend of wind and low-impact hydro power sourced from new Canadian renewable energy facilities.

“We are excited to welcome GlobAgro Corp. to the bullfrogpowered community,” said Sean Drygas, Executive Vice President, Bullfrog Power Sustainability Solutions. “By choosing green electricity, GlobAgro Corp. is helping to reduce our dependence on polluting forms of energy and transition Canada to renewable energy sources.”

Bullfrog also uses the support of its customers to help fund new community-based green energy projects across Canada.

In addition to choosing green energy with Bullfrog Power, GlobAgro’s sustainability initiatives include:

- 1) Reducing our impact
- 2) Supporting community-based green energy projects globally
- 3) Cleaning our air and water
- 4) Helping lead the way to a renewably powered future
- 5) Reducing waste
- 6) Hunger reduction through education and assistance
